# Wild Kids Sky Bar Assembly Instructions

**WARNING! Do not completely tighten screws while assembling the bar. Tighten them at the end so the bar is level.**

**Step 1:** Insert the Height Adjuster Pole (B) into the Bar Rail (A). Align the screw holes and gently hand tighten the screws (G) on both sides.

**Step 2:** Fold out the Support Poles (C) and screw on Floor Adjusters (G) Then align the Support Poles (C) and Base Stabilizer Bar (D)

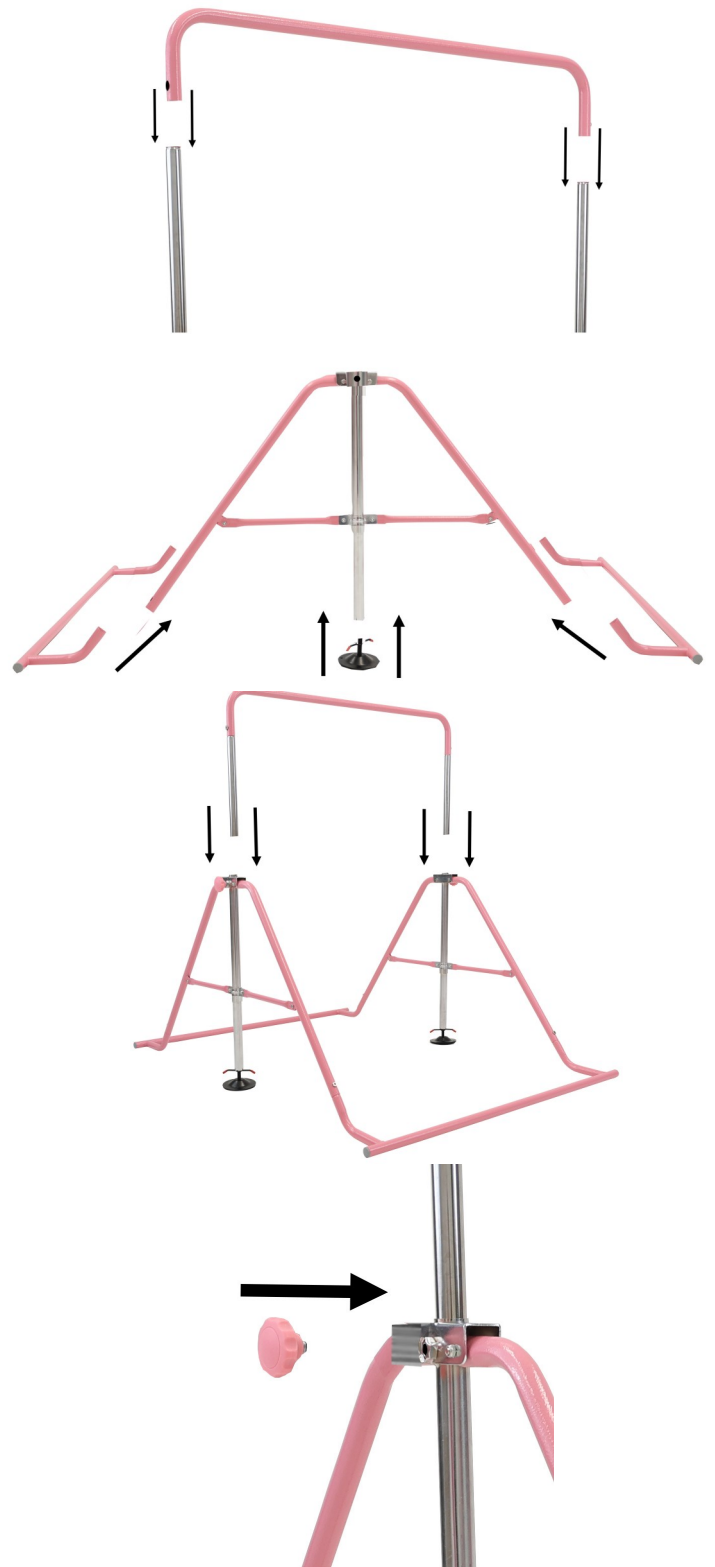

**Step 3:** Line up screw holes, then insert and gently hand tighten the screws (G) on all four ends of the Base Stabilizer Bars (D)

**Step 4:** Insert assembled top half of the bar into the top of the Support Pole (C)

**Step 5:** Next, insert the Spin Lock (F) into a Height Hole (see picture) at desired height and tighten.

**Step 6:** Last of all, adjust the Floor Adjusters (G) to compensate for uneven flooring. Then tighten all screws with tool provided.

**Step 10:** Enjoy your new bar!

Fold Sky Bar for easy storage by simply removing Spin Locks (F) and closing legs!

## Important Safety Information! Please Read!

- ◆ This bar is only meant for indoor use. If used outside, make sure it is not left out overnight.
- ◆ For safety and stability, only use the bar if it has a mat between the bar legs.
- ◆ Any activity involving motion or height creates the possibility of serious injury. This equipment is intended for use only under supervision. Before use, know your own limitations and the limitations of the equipment. The apparatus should always be placed on a firm, flat surface. Always inspect the equip to ensure the locking devices are secure before use. Failure to do so may result in serious injury.
- ◆ Always check that screws are tight and securely in place before use.

## To Adjust Bar Height:

**\*\*Two people are recommended to adjust the bar height\*\***

- ◆ Remove the Spin Lock (Part F) by turning it counter clockwise.
- ◆ Raise or lower the bar to the height you need, line up the holes and insert Spin Lock (F). Insure it inserts into a new support hole before tightening.
- ◆ Tighten the Spin Lock (Part F) by turning it clockwise.
